 My ideas:

- symbiose sport - cultura - recreation for everybody (children - elderly - "disabled" ...)
- provide open spaces for locomotor activities
 - walking, bicycling, in-line...
 - + playground for fitness (outdoor fitness machines, climbing walls, ...)
 - + multifunctional parks (= public green areas)

Public space allocation should be fairly allocated to reflect mode of transport usage.

When/where vehicle traffic is light, the space can be better & more justly used for cyclists & pedestrians.
